

Basic Course in Hypospadiology

Hypospadias Clinics and Ankura Hospitals are happy to announce this course for the benefit of young surgeons interested in hypospadias surgery. Each course has limited seats (4-5 delegates only). We plan to conduct these courses on a regular basis.

Fourth Course Dates: 15th & 16th May 2023,
Venue: Ankura Hospital, Banjara Hills.

Purpose

Hypospadias is a common anomaly and hypospadias surgery is considered to be an index operation in pediatric urology. The sheer versatility of the anomaly and the staggering number of surgical techniques described in literature is enough to confuse the young surgeon interested in hypospadias surgery. This course is aimed at appraising the young surgeons about the basics of hypospadias surgery, with a special emphasis on the choice of operative techniques to achieve optimal results. An overview of the common techniques used in hypospadiology will also be discussed and demonstrated.

Eligibility to apply for the course

Qualified (MCh/DNB) Pediatric Surgeons or Urologists, preferably recently qualified, with an interest and enthusiasm to learn the nuances of hypospadiology.

Course Fees: INR 10000/- (Includes registration, tea and lunch for 2 days, access to lectures and live surgery, Hypospadias book, Certificate of participation)

Highlights of the course

1. Didactic lectures

- Principles of hypospadias surgery
- Concept of Chordee and its correction
- Techniques for distal hypospadias repair including
 - Urethral Advancement
 - Mathieu Flip-Flap
 - Duplay principle
- Single-stage repair of hypospadias
 - Onlay island flap
- Staged repair of severe hypospadias
- Complications of Hypospadias repair and their management

2. Live case demonstration (subject to case availability)

- Single-stage hypospadias repair
- Staged repair of severe hypospadias
- Re-do hypospadias repair

3. One-to-one discussions with expert

4. Delegates will receive a complimentary copy of the book 'Hypospadias surgery: Science and Art' written by Dr VVS Chandrasekharam

Course Director:

Dr VVS Chandrasekharam,
MCh, FIAPS, FSPU

Dr VVS is a gold-medalist in MBBS from Hyderabad. He also received gold medal in 1999 from AIIMS, New Delhi, for the best postgraduate student in Pediatric Surgery. He is an expert in Pediatric Urology, Laparoscopy and Hypospadias Surgery. He published many papers on Hypospadias surgery in national and international journals. He authored a book 'Hypospadias Surgery: Science and Art', the first book of its kind from Asia. This book has sold over 800 copies over 2.5 years, and has been widely appreciated by both young and experienced surgeons. He is also the co-author of the book 'Pediatric Urology Update', and has been the past Chairman of the Society of Pediatric Urology (SPU-IAPS). He is currently the Chief Pediatric Urologist and Pediatric Surgeon at Ankura Hospitals for Women and Children, Hyderabad, India. He handles a caseload of over 200 Hypospadias cases every year, including complex re-operative Hypospadias cases in adolescents and adults also.
